FDA Commissioner Jane Henney '01 MAR - Feb 27 2001
Room 1061 (HFA-305)
680 Fishers Lane
Rockville, MD 20852

Dear Commissioner Henney:

I am writing to express my opposition to the FDA's new proposed rule and guidance on genetically engineered foods. The agency's voluntary labeling and notification proposals are totally inadequate to protect human health and the environment.

All genetically engineered foods should be labeled. The consumer has a right to know what he/she is eating.

It should not be assumed that GE foods are safe without adequate and mandatory pre-market-
ing testing.

Until long-term study and research prove GE foods are safe for humans, there should be a moratorium on these foods.

Please use your influence to see that

Page 2

The following bills are passed in Congress:

H.R. 3377, the Genetically Engineered Food
Right to Know act.

S 2080 calling for the labeling of GE foods

S2315 requiring safety testing for GE foods.

Thank you,

Sincerely,

Helen B. Grumman
