Re: Dockets OON-1396 and OOD-1598

Dear Commissioner Henney,

I am quite concerned over the rapid advance of genetically-modified food in our food supply. The proposed rule does not go far enough in allaying these concerns. I would like to see adequate testing required of all products and that the FDA review this data and offer it for publication. Proper labelling is also necessary so that consumers can make an informed choice.

Thank you for your consideration.

Very truly yours,

Basil P. Tangredi D.V.M.
