

Docket #s OOD-1598 & OON-1396

Dear FDA Commissioner,

As a consumer, a biologist by degree and
an environmental chemist by profession I
am alarmed by the ²²⁶⁹ rapid, unchecked, race
to profit being pursued by big name Ag.
Companies. If as claimed the "improvements"
gained by GE are for the benefit of mankind
What is the harm in requiring labelling? GM
organisms ~~should be~~ ^{labeled}
before being brought to market & consumers should
know what they eat. ^{David Hunt} ^{Abc.}
^{7704 Buckboard St. NH}

OOD-1598

C 2070

FDA Commissioner
