

Docket #00D-1598 00N-1396

March 08, 2007

Dear FDA Commissioner,

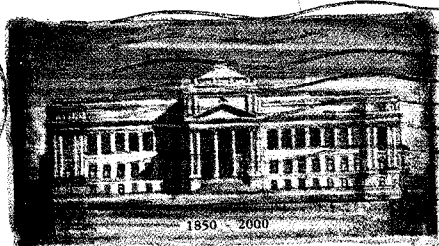

As a consumer I am very concerned about the quality of the food I consume and the impact of pesticides and chemicals on me, groundwater, livestock + environment.

I strongly urge you to require both pre-market safety testing and labeling of GM foods so that I can be informed about my food choices.

Sincerely, Sahreem Luegan
