

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency's current policies be changed, and to support all the points in docket #00P-1211/CPI

All GE Foods should be labeled so I am informed and have a choice. !!!

GE Foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing

There should be a moratorium on GE Foods until long-term studies show they are safe for human health and the environment.

Commissioner Jane Henney

Docket No. 00P-1211/CPI

(Additional Personal Comments:) *Even if it is "generally recognized as safe" for adults, what about my 2-yr-old? Europe acknowledges the need to label GE food, why not the U.S.??*
