

January '01

Dear Commissioner Jane Heneghan, JAN 24 P1:58

Re: Docket No. # OOP-1211/CPI - My  
husband & I are very concerned about and  
definitely opposed to the onslaught of  
Genetically Engineered Foods. We ask  
that all <sup>be</sup> foods be labeled - and believe it  
an outrage for all humans if they are not.  
We believe from all we have learned that  
GE foods pose <sup>serious</sup> health & environmental risks,  
as well as raise certain ethical & religious  
problems. Thank you for your attention to this matter,  
Sincerely,  
Diane L. Epstein-Parker
