

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211\CPI

- All GE foods should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing to determine the long-term impacts to human health and the environment.

Commissioner Jane Henney
 Docket No. 00P-1211\CPI-38
 FDA Dockets Management Branch
 (HFA-305)
 5630 Fishers Lane, Room 1061
 Rockville MD 20852

(Additional Personal Comments:)

America is always afraid if they are not in the fore-
 front of research + technology that they will somehow fall
 behind the rest of the world. Maybe with GE we should
 let other countries proceed first with these dangerous exper-
 iments and learn from their inevitable mistakes.
