

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211\CP1

20¢
stamp
please

All GE foods should be labeled so I am informed and have a choice.

GE foods should not be assumed to be generally recognized as safe* and should have mandatory pre-market safety testing

There should be a moratorium on CE foods until long-term studies show they are safe for human health and the environment.
