Dear Sirs;

I'm writing to urge the Food and Drug Administration to grant petition 98 P-0151/CPI to prohibit the slaughter of downed animals. Animals who are too sick to stand should not be allowed to enter the human food chain. It is impossible to move downed animals humanely and they are typically pushed with tractors or dragged with chains. This of course results in horrible injuries. Downed animal comprise a very small percentage of animals slaughtered and prohibiting their marketing will cause no undue economic hardship. Please, for these innocent creatures who can't speak for themselves, grant petition

98 98 P-0151/CPI. Thank you

C 4310

(2)

for your time.

Sincerely,  
Marilyn Davis
