Dear Commissioner Henney:

 The abuse of antibiotics on a large scale in agriculture is rendering them useless for human disease, a matter which touches the life of every American. As such, I demand that our FDA take swift action to put a halt to this irresponsible and dangerous practice.

Sincerely yours,

  
Elaine Livesey - Fassel

PLEASE

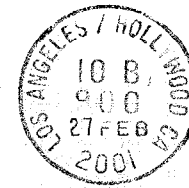

If animals were not housed so UN-naturally, in small cages & containment areas you would not need so many drugs - Inhumanity is also UNHEALTHY!!! That's logic!
