

Dear Sir/Madame

NEW YORK

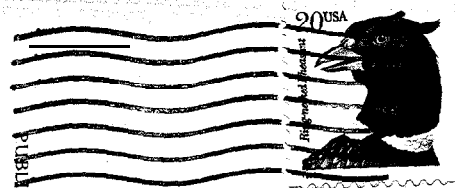

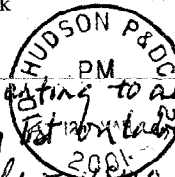

Top of Chrysler Bldg

Ms. Elaine Sperbeck

P.O. BOX 130

Cairo, NY 12413

I do not agree w/ the FDA waiting to allow manufacturers to voluntarily list ingredients that have been dev. using genetic engineering. Docket 00D-1598

I want manufacturers to tell me what's in my food. Manufacturers must be made to list any GE ingredients.

The National Academy of Sciences reported that GE foods have a potential to produce allergens and toxicants. The possible harm to beneficial insects & soil organisms must be avoided too. Thank you
Elaine Sperbeck
