Dear FDA,

It seems we, the citizens, are forever having to beg you, the powers, to allow us to know what we are eating. Until you, the Powers, require mandatory labelling of genetically engineered foods, we, the citizens are in the dark.

We want labelling and Testing, before this tainted 'food' is on the market. We know we're a high percentage of the population, but you, the Power, refuse to test or label these unwanted, dangerous foods. Your opinion that we are of no importance is obvious. So we keep on begging for protection of our food. And on and on, for years now.

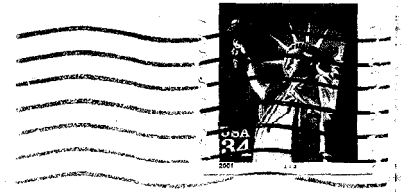

PLEASE give us the courtesy of
knowledge!

Nancy Dean
