Docket No. 00N-1396 & Docket No. 00D-1598

Dear Commissioner Henney:

Please be advised that consumers, overwhelmingly want genetically engineered foods to be labeled. If some people believe g.e. products are safe, let us ask them to volunteer to test such products until then, in light of issues such as genetic pollution, pleiotropism, overexpression, and other g.e. problems, let us require labeling. To leave it to the avarice of the Monarchs of the world is sheer madness.

Cordially

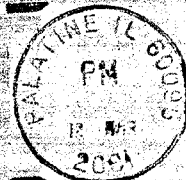

Steven Jay Gross, Ph.D., ABPP
