Docket # 98P-0151/CPI

U.S. FDA

Dockets Management Branch
5630 Fishers Ln. Room 1061
Rockville, MD 20852

Dear Official,

Please prohibit slaughter of
downed animals. These sick
and lame animals are a
health hazard to the food
supply & should be humanely
put out of their misery.
(next page)

Further, if downed animals
lose economic value there
will be more incentive to
better care for them on
factory farms and during
transport. In the long run
this will be better for American
consumers and the meat
industry.

Sincerely,

Ms. Jamey Lee West
435 Christopher Av. T-2
Gaithersburg, MD 20879
