

Dear FDA,

I am writing to express my concern over the FDA's regulation of genetic & engineered (GE) food, to ask that the agency's current policies be changed, and to support all the points in docket # OOP-1211/CPI, specifically:

- All GE foods should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing.
- There should be a moratorium on GE foods and crops until long term studies show they are safe for human health and the environment.

**GE Food Moratorium**

**Petition**

**Organic Consumers**

**6114 Hwy 61**

**Little Marais, MN 55614,**

Additional Personal Comments:

*I do not want to consume genetic foods in any form processed or fresh ever. Thank you.*
