

Dear Sir,

I would like to express my concern about the practice of using downed animals for human consumption and to encourage you to grant petition 98P-0151/CP1.

It is my own personal feeling that animals who are too sick to even stand up should not be used for human consumption. Trying to move these animals is especially inhumane. Dragging them with tractors causes tremendous pain and injuries. I sincerely hope

you will consider granting petition  
98P-0151 / CPI. Its not only more  
humane to the animals but, in  
my opinion, healthier for the people  
who consume beef.

Thank You,  
Lisa James
