Dear Sirs; 6352 2/19/2001 49

This letter is in reference to downed  
animal protection Docket Number  
98P-0151/CP1.

Animals who are too sick to even stand  
pose a health threat and should not be  
allowed to enter the human food chain.

It is impossible to move downed  
animals humanely and they are typically  
pushed with tractors or dragged with  
chains - inhumane processes which cause  
injuries ranging from bruises and abrasions  
to broken bones and torn ligaments

Downed animals comprise a very small percentage of animals slaughtered and prohibiting their marketing will cause no undue economic hardship. I would like the downed animal trade to be stopped.

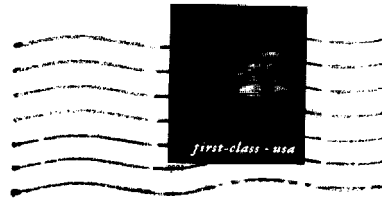

Sincerely  
Jane McCarthy
