FDA Commissioner
Food & Drug Administration
5630 Fishers Land, Room 1061
Rockville, MD. 20852

Dear Commissioner,

I am writing to you to express my opinion that ALL genetically engineered foods and food ingredients be labeled so that the consumers can be informed and have a choice as to what they are eating and feeding their families. I do not feel that genetically engineered foods should be presumed to be safe until they have been thoroughly tested which at this point they have not! I would like to see all genetically engineered foods/ ingredients subjected to mandatory pre-market safety testing. In addition, I would suggest that there be a moratorium on all genetically engineered foods until LONG TERM studies prove they are safe for human consumption. I appreciate you taking the time to read this letter and look forward to your response on this issue

Respectfully,

Pam Iwa
