

A complete ban on the creation,
use & release of GMO's ^{needs}
to occur immediately

01 MAR 7 19:55

What we knew was likely to occur
is no upon us in Canada,

Sometimes I wonder what different
humans are than other species
Such arrogance by some while
others of us work so damned hard to
interfere with the destruction of this world we
know.

Ban GMO's - do not wait
for more horrors.
Already so much has been unleashed
