

Docket #s OOD-1598 & OON-1396

Dear FDA Commissioner,

As a consumer, a biologist by degree and  
an environmental chemist by profession I  
am alarmed by the <sup>269</sup> rapid, unchecked race  
to profit being pursued by big name Ag.  
Companies. If as claimed the "improvements"  
gained by GE are for the benefit of mankind,  
what is the harm in requiring labelling? GM  
organ ~~\_\_\_\_\_~~ <sup>likely</sup>  
before being brought to market & consumers should  
know what they eat. <sup>David Hunt - ABC</sup>  
~~7/04 Backdoor~~

OON-1396
