

Docket # OGN-1396, ODP-1598

I am writing to voice my serious concern about genetically engineered foods.

I believe that <sup>316</sup> any such foods <sup>are</sup> <sup>not</sup> comprehensively

MUST be clearly <sup>labeled</sup> <sup>there</sup> <sup>have</sup> <sup>been</sup> <sup>before</sup> <sup>labeled</sup>. Throughout history there have been numerous examples of products that later turned out to be unsafe. We must protect the consumer's right to make their own decisions about what they're eating.

OGN-1396

c. 1897
