

Docket #00D-1598 OON-1396

March 08, 2001

Dear FDA Commissioner,

As a consumer I am very concerned about the quality of the food I consume and the impact of pesticides and chemicals on me, groundwater, livestock + environment. I strongly urge you to require both pre-market ^{safety} testing and labeling of GM foods so that I can be informed about my food choices.

Sincerely,
Saharun Luangsom

OON-1398
