

FDA Commissioner,

I am writing to express my opposition to FDA's proposed new rule and guidance on genetically engineered (GE) foods. We oppose the agency's voluntary labeling and notification proposals in support of all the points in the citizen's petition currently before the agency (docket No. 00N-1396, and 00D-1598).

- All GE foods should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing
- There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.

FDA Commissioner
Dockets Management Branch (HFA 305)

Rockville, MD 20852

RE: Docket No. OON-1396, and OOD-1598

(Additional Personal Comment(s):

I would like to have the right to choose non-GE foods. Now, I do not know which foods are modified or not. I like to be informed.
