

3-1-01

Dear Sirs, OF FDA + Bush administration:

We the American people <sup>1199</sup> are tired <sup>03</sup> of big  
money and big companies <sup>that</sup> dictate the way  
you pass laws because they want to get  
richer faster!

We should not be looked at as  
little animals to be tested on.

You have a job to do, so do it!

- FDA ① we need mandatory pre-market safety testing on GE  
food
- FDA ② mandatory pre-market environment review
- FDA ③ mandatory labeling of GE foods
- ④ We are insulted that FDA irresponsibly ignore  
strong scientific evidence of potential health risks etc.
