Re: Dockets 00N-1396
& 00D-1598

Dear Sir or Madam:

It is urgent that

- (1) FDA must require mandatory pre-market safety testing of genetically engineered foods (GE foods).
- (2) FDA must require mandatory environmental review of GE foods.
- (3) FDA must require mandatory labeling of GE foods.

The "notification" policy ignores strong evidence of numerous potential health and environmental risks of GE foods. I urge you to change this policy and install the three requirements listed above.

Thank you very much.

Sincerely,
Daniel Shively
