

DOCKET #'S OOD-1598 & OON-1396

Dear FDA Commissioner,

I wanna know what's in my food.
I want genetically modified foods to
be tested and clearly labeled.
If you don't listen to me, I shall
pray to all the gods I know to
visit upon you and your family
many varieties of plague and torment,
including, but not limited to, choking
clouds of gnats.

Sincerely, Bryn Halloran.
