

DOCKET #'S OOD-1598 & OON-1396

Dear Commissioner,

Feb 4, 2001

As a consumer, I have a right to know what is in the food I eat and to choose whether or not I want to consume foods which contain Genetically Modified Ingredients. I therefore urge ~~you~~ you to require both labelling and testing of all GE foods, so I can exercise my freedom of choice.

Sincerely, Becca Reed
