Dear FDA Commissioner, I am writing to express my opposition to FDA's proposed new rule and guidance on genetically agency's voluntary labeling and notification CO proposals in support of all the points in the citizen's petition currently before the agency (docket No. 00N-1396, and 00D-1598). If All GE foods should be labeled so I am informed and have a choice. If GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing If There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.
