Re: Dockets 00D-1598 and 00N-1396

Dear Commisioner,

5554 '01 MAR 21 P5:26

I feel strongly that my right to know what is in my food should outweigh the economic interests of biotech corporations. And, since it is the FDA's job to protect the American consumer, *at the very least* you should require independent safety testing of all genetic&y engineered products, as well as clear labeling of any foods on the market which contain GMO.

Please do your job!!

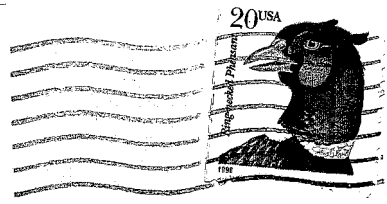

Sincerely, 

THIS IS VERY IMPORTANT TO ME & THE WORLD
