Dear Commissioner Henney (DOCKET-00N-13964) 3/16/01
" 00D-1598)
Genetically-engineered food has never been tested for safety, toxic or allergic reactions or lower nutritional value. By deciding to make all labeling of GE food voluntary, the FDA is conveniently side-stepping the issue. Most Americans are NOT comfortable with GE foods - and Europeans will not accept them! Consumers want to know what's in their food. Anything less than MANDATORY LABELING is an infringement of consumer rights. Further, ALL GE Foods should be removed from stores until they have been thoroughly tested - and LABELLED! Sincerely, Evelyn Knazek
