

That I am being used as a guinea pig for the profits of biotech companies is an outrage!! I have the right to my health and the right to know all that affects my well-being. The withholding of information, rightfully mine, to know what I am purchasing as regards foods is a violation of my basic human rights. I demand that the FDA immediately impose a moratorium on all genetically engineered, altered, or ~~what ever you want to call it~~ and demand that any entity wishing to impose GE organisms on this planet be required by law under severe penalty to conduct exhaustive and conclusive testing on any new organism, etc. ~~that that entity~~ to ensure safety, of absolute safety, of that organism, for the people and the planet. I demand a written response to this letter. (see address on other side).

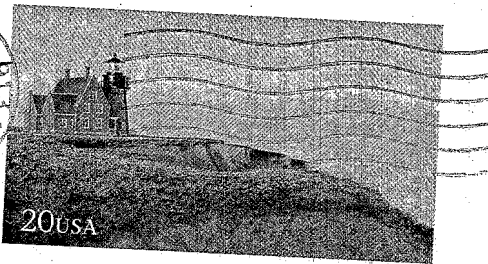

Sincerely,

*[Signature]*
