

Dear FDA Commissioner,

Are GE foods really considered "GRAS"?  
There is scientific evidence of both the  
dangers to humans consuming the ~~material~~  
to the environment. <sup>1970</sup> <sup>01 MAR 21</sup> There should be  
mandatory pre-market safety testing.  
Why foist these GE foods on us in a hurry?  
Safety first for humans and America. There  
could be long-term dangers that are  
irreparable. Sincerely, Ronell Walker
