RE: Docket # OON-1396 and #OOD-1598

MALCOLM AND COSETTE DUDLEY --
1916 Place Rd., Pt. Angeles, WA 93363

To the-Commissioner,

I am extremely concerned that the Food and Drug Administration (FDA) has proposed regulations that still fail to require labels or safety tests on genetically engineered (GE) food. Labels on GE foods are required in Japan, Russia, and throughout Europe, yet your new proposal continues to deny Americans the right to know what is in our food.

5894 01 MAR 23 AM 38

FDA's "voluntary labeling" guidelines will leave thousands of unlabeled GE foods on our supermarket shelves. Furthermore, the agency's proposed notification rule fails to require any safety testing. FDA appears to be playing politics with our food, disregarding science-based precautions that other countries have implemented. I urge you to reconsider this proposal and insure that GE foods are subject to pre-market testing and labeling. Americans deserve the same protections as the rest of the world.

Please label our food! We want to know what we are eating! We don't want to eat GE foods.
