FSA

I am so upset about my prescription costs —

4205 '01 MAY 14 NO:30

I'm on Social Security - no pension -
and my prescriptions are \$21.27/month

This does not include items such
as antibiotics, which are needed when
ill or a dental appt - plus calcium
which I have to take.

I think seniors with no prescription
coverage should get a break —
why must all the \$ spent by
Pharmaceutical companies have to be spent,
esp. TV, on page ads in newspapers,
magazines.

Why can't we (the U.S.) support our people
here at home before all the money ^{per} to other
countries for help.

"Charity starts at home"

I think we Senior Citizens are being taken
advantage of re: prescription costs →
