

Invoice # 000-1598, 0010-1396

2/5/01

Dear FDA Commissioners,

I am opposed to genetic engineering of foods, and would prefer not to be used as a source pig for the GMO companies. FEED I believe it is your job to make sure this doesn't happen, please protect the public health by taking all GMO products off the market until they have been proven safe (by independent consumer groups), and in the meantime, please require labeling so that I at least know what I am buying. Thank you.  
JULIE REICHERT
