Docket # 99P-1340/CFR 6 101 MAR -5 AIO:24

I'm writing to express outrage at the FDA approval of toxic fragrances (in all sorts of products & perfumes). The perfume ETERNITY, like all other fragrances derived from synthetic, toxic chemicals have caused me permanent neurological & cognitive damage.

As the result of pesticide poisoning I became chemically sensitive 9 years ago. I have permanent nerve damage & every time I am exposed to pesticides, perfumes fragrances, solvents, cleansers & other synthetic chemicals, I develop neurological & cognitive impairment such as a drugged feeling, slurred speech, blurred C681 vision, numbness in face & limbs, lack of ability to concentrate, faulty memory, balance problems, hormonal imbalances, weakness,

99P-1340

Chronic fatigue, muscle & joint pain, migraines, learning disabilities, etc.

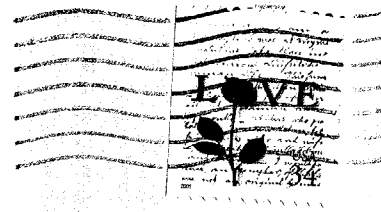

I have a Ph.D. & cannot practice my profession because of disability caused by toxic chemicals approved for use by the FDA & other government agencies.

It is time the FDA started protecting people's health instead of the profits of corporations. Otherwise, people will be forced to take any action ~~deemed~~ deemed necessary to protect themselves.
