

FDA Commissioner

1 April 2001

As a member the Center for Science in the Public Interest, I urge you to invest more resources to ensure that:

- ✓ Food labels completely & accurately list the presence of all known allergens, including those used in flavorings;
- ✓ Food manufacturers adopt measures to prevent the unintentional contamination of their products with undeclared food allergens; and
- ✓ Food manufacturers include a toll-free telephone number on their labels that consumers can call for more information about ingredients.

Thank you
Fay C. Graning
