As a member of the Center for Science in the Public Interest, I urge you to invest more resources to ensure that:

- food labels completely and accurately list the presence of all known allergens, including those used in flavorings; - however even if tiny amounts,
- food manufacturers adopt measures to prevent the unintentional contamination of their products with undeclared food allergens; and
- food manufacturers include a toll-free telephone number on their labels that consumers can call for more information about ingredients.

\* my Son is Very allergic to milk - natural flavors do not label the milk - so he reacts.

This would make our life much easier

FDA Commissioner
