YOU
AGREE?
NO ONE NOTICES!

Look for the
Novasoy leaf
on the label of your
dietary supplement.

Today, we know that taking a calcium supplement may reduce the risk of developing osteoporosis. Soy isoflavones may also help maintain bone health.

Now there's a natural solution for those concerned about their posture: Novasoy[®] soy isoflavone concentrate, an ingredient in dietary supplements.

So maintain your natural posture. Make sure your calcium supplement contains Novasoy. For more information on supplements containing Novasoy isoflavones, visit our Web site or call 1-877-NOVASOY.

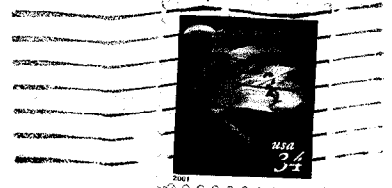

NOVASOY + CALCIUM = A COMBINATION YOU CAN COUNT ON.
