Commissioner of FDA
5630 Fishers Lane
Rm 1061
Rockville, MD 20852

Dear Commissioner:

I write to inquire why genetically engineered foods are not labeled as such. Certainly the right to know what we are spending our hard earned money on for nourishment is encompassed in the words and intent of our Constitution. These products must be labeled for the consumer's right to choose or not to choose to use. These GE foods must be subject to mandatory testing by the FDA. I am shocked to hear this well renowned agency is not doing its job as well as it

000-1598

should.

My family and I place ourselves among the many who demand a change in the FDA's rulings on H & C products to protect us - the citizens and consumers - and yourselves to boot!

Yours truly,
Edwardine Panepinto
