Re: 21 U.S.C. Section 343(r)(6), Notification of Statements on Dietary Supplements

Dear Sir/Madam:

I hereby notify the Food and Drug Administration ("FDA") of the use of statements of nutritional support in the labeling of Glucosamine & Chondroitin, a joint support supplement.

Statements being made in the labeling of Glucosamine & Chondroitin

- (1) Glucosamine & Chondroitin are naturally occurring structural components that have enjoyed growing popularity recently. Glucosamine is an amino sugar derived from the chitin of shellfish and is used by the body to support healthy joint structures. Chondroitin complements Glucosamine and works synergistically with it to provide optimal nutritional support.

To the best of my knowledge, and based upon information and belief present at the time of the executing of this notice, I certify that the above information is accurate and complete. Now Foods possesses substantiation that the statements are truthful and not misleading.
