Subject: Climate Working Group

I maybe chairing this Climate Working Group at AF&PA. I have been asked, but I am trying to determine the time commitment issue.

I will keep you posted with how things work out.

Below is a soliciation letter from AF&PA to members to join this group. See attached charter....

Regards,

Greg

To: Air Quality Committee
From: Dee Gavora
Tim Hunt

- > In response to increased activity on climate issues following the
- > President's Climate Change Initiative announced in February, a Climate
- > Advisory Group has been formed to give direction and guidance to AF&PA.
- > The group is comprised of senior company representatives from the

> Regulatory Policy Committee and the Global Climate Forestry Task Group and
> is co-chaired by Sara Kendall of Weyerhaeuser and Susan Moore of Georgia
> Pacific. A draft statement of the Advisory Group's goals and objectives
> is attached.

>
> Formation of Climate Working Group
> The next step is the formation of a Climate Working Group to support the
> Climate Advisory Group's mission. The existing Global Climate Forestry
> Task Group will serve this function for forestry related issues. On the
> manufacturing side, a new group needs to be formed to track domestic and
> international activities and implement the approaches outlined by the
> advisory group. We are seeking representation from the manufacturing and
> recycling sectors of the industry for this Group and hope that several
> members of the Air Quality Committee will be interested in participating.

>
> Meeting of Climate Advisory and Working Groups - 5/21/02
> The AF&PA Climate Advisory Group has decided to hold a joint Advisory and
> Working Groups meeting on Tuesday, May 21st in Washington, D.C. The
> purpose of the meeting is to discuss AF&PA's goals and objectives and lay
> out an action plan for achieving those objectives. Larisa Dobriansky with
> DOE has been invited to discuss the Administration's plans for revising
> the current voluntary greenhouse gas emission reporting scheme.

>
> Please let Dee know by Friday, May 3rd, if you or a representative of
> your company is interested in joining the Climate Manufacturing Working
> Group, and I will send them more specific information on the 5/21 meeting.
