TEXT:
Hello All,

Attached for your reading pleasure is the close-to-final US National
Communication to the Framework Convention on Climate Change entitled
the
US Climate Action Report. For those of you lucky enough not to have
been
drawn into this process to date, the U.S. Climate Action Report is the
Unites States' third formal communication to the Framework Convention
on
Climate Change. Under the Climate Convention, Parties are required to
submit periodic reports, or national communications, detailing their
efforts to implement their commitments under the Convention. This
report
provides an update on key activities conducted by the U.S. since our
last national communication.

After several months of interagency development, we are now at the
stage
of final interagency review. Please send any remaining edits, comments
or outstanding issues to me by COB Friday, January 18th. If I do not
receive comments by this time, I will assume that your agency has
cleared the document. This date is required to enable the OMB review
for the Executive Office of the President to occur on schedule.
Following receipt of comments Reid Harvey and I will work with chapter
leads and commentors to resolve any outstanding issues. The document
will then be circulated to the Executive Office for their review.

Once you unzip the attached file, you will find folders for each
chapter
of the national communication containing the text for that chapter and
any related graphics or appendices. Additionally, where substantive
changes have been made since the previous draft, the author has
included
a note explaining these changes and the source/rationale for the
change.
A chapter list is included below. If possible, please identify your
comments on each chapter by page number and paragraph, rather than
inserting them directly into the texts.

Thank you for your time and attention to this, and please feel free to
contact me if you have any questions.

   Clare Breidenich

ph: 564 - 4029
fax: 565 - 6672/3

(See attached file: National Communication - Interagency draft.zip)

Chapters
1. Intro and overview

2. National circumstances

3. GHG inventory

4. Policies and Measures

5. GHG Projections

6. Vulnerability

7. Financial resources and Technology Cooperation

8. Research and observation

9. Education, training, and awareness
