SUBJECT: STAFF REQUIREMENTS - COMGBJ-06-0004 - POTENTIAL  
CLOSURE OF THE ISSUES SURROUNDING THE FEBRUARY  
25, 2002, SECURITY ORDERS TO NUCLEAR POWER PLANTS

Fully documenting the insights gained from the Phase 1, 2, and 3 initiatives to implement the requirements of the February 25, 2002 security orders to nuclear power plants will be important to future decisions the staff and Commission will need to make regarding the design features and operational security programs of any new future plants. Therefore, for the purposes of maintaining a clear and continuing record of staff decision-bases, the staff should summarize for the Commission how its integrated technical insights and decision bases resulting from Phases 1, 2, and 3 will be documented for use by future staff and Commissions.

The staff should provide to the Commission a summary report following the completion of all staff licensing actions related to these initiatives.

The staff should notify the Commission within 60 days that a licensee has reported a modification or deletion of any commitment made pursuant to Phase 3, together with a recommendation as to whether an Order should be issued.
