

The Report of Changes in Organizational Structure (FR Y-10)

GENERAL INSTRUCTIONS

Introduction

Use this form to report information on investments of bank holding companies (BHCs), U.S. banks, and Edge and agreement corporations pertaining to legal companies described in the “Reportable Companies” sections. Also use this form to report commencement of new activities.

This instruction book is divided into the following sections:

- (1) General Instructions, describing overall reporting requirements;
- (2) Specific Instructions for completing the:
 - (a) Cover Page,
 - (b) Characteristics Schedule,
 - (c) Investments and Activities Schedule, and
 - (d) Merger Schedule of the report;
- (3) Glossary;
- (4) Appendices consisting of definitions of legal authority codes and Federal Reserve Board of Governors' activity codes; and
- (5) Detailed examples of how to complete the report form.

Refer to the Glossary for additional information and for definitions of terms used in these instructions.

Reporters are required to prepare and file this report in accordance with these instructions to reflect an accurate representation of their organizational structure. Section 8 of the BHC Act provides for civil monetary penalties that could be levied for the submission of false or misleading reports, failure to submit a report, or the late filing of a report. If it is discovered that information has been reported incorrectly, corrected information must be reported immediately.

Who Must Report

The following companies are required to file this report (Reporters):

- Top-tier BHCs, including U.S. financial holding companies (FHCs);
- State member banks (SMBs) that are not controlled by a BHC (unaffiliated SMBs);
- Edge and agreement corporations that are not controlled by a member bank, a domestic BHC, or a foreign banking organization;
- Nationally chartered banks that are not controlled by a BHC, with regard to their foreign investments only; and
- Foreign banking organizations (FBOs) that are BHCs and not qualifying FBOs or do not qualify for limited exemptions under section 211.23(c) of Regulation K.

Note: The term BHC includes those organizations that have effectively elected to become a FHC.

Where to File

The Reporter should submit the reports to the appropriate Federal Reserve Bank. (see Glossary for definition of appropriate Federal Reserve Bank)

When to Report

All reports required by this form must be received within thirty (30) calendar days of the occurrence of a reportable transaction or event. Earlier submission would aid the Federal Reserve in reviewing and processing the reports.

Reporters that are unable to obtain the required officer's signature on their completed original reports by the reporting deadline may contact the appropriate Federal Reserve Bank to arrange for the timely submission of the required data and the subsequent filing of their signed report.

The original report and one copy should be received within the deadline listed above. The term “reporting deadline” is defined as the date by which a reporter’s completed FR Y-10 is due at the appropriate Federal Reserve Bank.

What Must Be Reported

A first-time reporter must provide the required information about all companies within its organization that are reportable on the FR Y-10 (as defined below) and should enclose an organization chart containing these companies. This organization chart may differ from the one provided for the FR Y-6, Annual Report of Bank Holding Companies, since the list of reportable companies on the FR Y-6 is more comprehensive. Note that the term company includes general and limited partnerships and certain trusts (see Glossary for the complete definition of company).

Reportable Companies:

- Reporters;
- BHCs (including FBOs that are BHCs) and U.S. banks:
 - In which the reporter directly and/or indirectly owns, controls, or holds with power to vote more than 5 percent of the outstanding shares of any class of voting securities; or
 - That the reporter controls whether or not it has an interest in voting securities (see Glossary for definition of control)
 - In addition to any shares of a bank or bank holding company that a reporter directly or indirectly owns, a reporter is deemed to control a bank or bank holding company’s shares that the reporter directly or indirectly (a) holds in a fiduciary capacity (including through an ESOP, ESOT, or similar business trust) for the benefit of the reporter’s employees, members, shareholders, or affiliates, or (b) holds in a fiduciary capacity (regardless of beneficiary) where the holder has had sole discretionary voting rights with respect to the shares for more than two years. A reporter should total up all shares it owns or controls through any and all means to determine whether a bank or bank holding company is a reportable company.
- Any nonbanking company held under Regulation Y (excluding companies held as merchant banking investments but including certain depository institutions, such as savings associations – see Glossary for definition of nonbanking company), and any company, including a foreign bank, held under subpart A of Regulation K (for example, Edge corporations, agreement corporations, and investments/ activities abroad), and any export trading company held under subpart C of Regulation K:
 - In which the reporter, directly and/or indirectly owns, controls, or holds power to vote 25 percent or more of the outstanding shares of any class of voting securities; or
 - That the reporter controls whether or not it has an interest in voting securities (see Glossary for definition of control).
 - In addition to any shares of a nonbanking company that a reporter directly or indirectly owns, a reporter is deemed to control a nonbanking company’s shares that the reporter directly or indirectly holds in a fiduciary capacity (including through an ESOP, ESOT, or similar business trust) for the benefit of the reporter’s employees, members, shareholders, or affiliates. A reporter should total up all shares it owns or controls through any means to determine whether a nonbank is a reportable company.
- Foreign banking organizations (FBOs) that are not qualifying FBOs (QFBOs) or do not qualify for limited exemptions under section 211.23(c) of Regulation K;
- A specific merchant banking or insurance company investment made by an affiliate of a FHC is reportable if the FHC and its affiliates on a combined basis acquire more than 5 percent of the voting shares, assets, or ownership interests of a company engaged in a non-financial activity at a cost that exceeds the lesser of 5 percent of the parent FHC’s Tier 1 capital or \$200 million (see Section C of the Investments and Activities Schedule for more information on reporting merchant banking investments);
- Operating or financial subsidiaries of a nationally chartered bank that is controlled by a BHC;

- Financial or other subsidiaries controlled by an unaffiliated SMB or by a bank that is controlled by a BHC; and
- Any entity not mentioned above that is required to file a financial report with the Federal Reserve System.

Do not report the following:

- Assets other than shares of a company, unless (a) the reporter is deemed to control the company by acquiring all or substantially of the company's assets or (b) the reporter's interest in the company is a reportable merchant banking investment as described in the "Reportable Companies" section above;
- Companies held directly or indirectly (other than reportable merchant banking investments described in the "Reportable Companies" section above) by a Small Business Investment Company registered with the Small Business Administration;
- Companies that are held solely as collateral securing an extension of credit;
- Nonbank companies that a reporter does not control (see Glossary for definition of control), unless the reporter's interest in the company is a reportable merchant banking investment as described in the "Reportable Companies" section above;
- Operating or financial subsidiaries controlled by a nationally chartered bank that is not controlled by a BHC;
- Companies that are controlled by an insurance underwriter unless such companies are (a) the highest-tier provider of a primary line of business (e.g., property/casualty, accident/health), (b) required to file a financial report with the Federal Reserve System, or (c) a reportable merchant banking investment described in the "Reportable Companies" section above;
- An investment company whose only activity is to own assets for the benefit of someone other than the reporter or its affiliates;
- A top-tiered FBO should not report other FBOs or foreign banks it controls on this form. See the FR Y-10F form for reportability of these entities;

- Companies that have been set up as name-saving organizations or have been formed or incorporated but do not yet conduct any business activity. These companies become reportable only when they commence an activity;
- Special purpose vehicles (SPV) formed as vehicles for specific leasing transactions; (for example, when an SPV is engaged in a single leasing transaction).
- Companies, other than BHCs and banks, acquired in satisfaction of a debt previously contracted or that were formed solely to hold shares or other assets acquired in satisfaction of a debt previously contracted;
- Companies or other assets that must be divested or conformed in accordance with the BHC Act or the Board's Regulation Y (other than the reportable merchant banking investments described in the "Reportable Companies" section above); and
- Additional activities that have been approved but not yet commenced.

Reportable Transactions:

- Commencement of operations;
- Commencement of an additional activity within a reporter's organization for the first time (once a FHC reports an activity under section 4(k) of the BHC Act, the FHC thereafter may conduct the activity through any part of its *existing* organization without submitting an additional report);
- Acquisitions (including the acquisition of all or substantially all the assets of a bank, BHC, or company), mergers, sales, or transfers of reportable companies;
- Changes to previously reported items (including name, location, legal authority, equity interest, primary activity, business entity type, etc.);
- Termination by a reportable company of a previously reported activity.

All information provided for a particular transaction date or effective date should reflect the structure of the organization as of close of business on that date. For purposes of this report, close of business occurs when the accounting books for the company were closed for the day.

Confidentiality

The completed version of this report is available to the public upon request on an individual basis. However, a reporter may request confidential treatment for portions of the report if the reporter is of the opinion that disclosure of specific information in the report would likely result in substantial harm to its competitive position, or that disclosure of the submitted information would result in an unwarranted invasion of personal privacy.

A request for confidential treatment must be submitted in writing, in a separate letter, concurrently with the submission of the report. The request must discuss the justification for the confidentiality requested and must demonstrate the specific nature of the harm that would result from public release of the information. Merely stating that competitive harm would result or that information is personal is not sufficient.

When confidential treatment is requested for an item, that item should be labeled "confidential" and submitted under a separate cover page marked "confidential".

The Board will determine whether information submitted with a request for confidential treatment will be so treated, and will advise the reporter through the appropriate Federal Reserve Bank.

If a determination is made to release any of the confidential information pursuant to a judicial order or other determination, the Board will inform the reporter prior to release of the information. Release of this information is governed by the Board's Rules on the Availability of Information (See 12 CFR part 261).

Filing by Tiered Organizations

The top-tier of a multi-tiered BHC organization should file a single report. A tiered BHC exists when a BHC directly or indirectly controls another BHC.

Additional Reporting Materials and Information Requests

In certain instances (e.g., large mergers or corporate reorganizations) where numerous structure changes occur, the appropriate Federal Reserve Bank may request that a reporter submit additional material, such as before and after organization charts or a narrative description of a complex transaction, to aid in reporting. While these additional materials should be included when reporting complex changes, they will not be accepted as a substitute for the reports.

The reporter should follow the procedures on confidentiality set out above in filing additional information to the report, if applicable.

In instances involving the merger of organizations, the reporter may request information from the appropriate Federal Reserve Bank to assist the reporter in preparing a comprehensive report of the transaction, for example, by providing a report indicating the organizational structure of the nonsurviving reporter prior to the merger.

Report Format

The report is comprised of four parts:

- (1) Cover Page;
- (2) Characteristics Schedule;
- (3) Investments and Activities Schedule; and
- (4) Merger Schedule.

Depending on the nature of reported changes in structure and activity information, it will not always be necessary to file all schedules. Blank schedules should be omitted. Several supporting schedules may be included with one cover page. If more than one entry is needed for a particular submission, multiple copies of the schedule should be submitted.

The top-tier BHC or reporter must complete the *Cover Page* and must include the signature of an officer of the reporter. One submission is defined as all schedules required to be submitted as of one report date. One submission may contain transactions occurring on the same day, or may contain transactions occurring on different days as long as each transaction

is reported within thirty (30) calendar days of its occurrence. The content of each submission will vary depending on the type of transaction being reported.

Use the *Characteristics Schedule* to report the initial establishment of a relationship and all changes to legal names and location information for any reportable company.

Use the *Investments and Activities Schedule* to report acquisitions, sales, transfers, and liquidations of all reportable companies. Also report the commencement or cessation of a business activity by a reportable company and the cessation of reportability of companies on this schedule.

Use the *Merger Schedule* to report survivor and nonsurvivor information, as well as the effective date of the merger.

See the specific instructions for each schedule for more detailed information.

Specific Instructions for the Investments and Activities Schedule (FR Y-10)

What To Report

Use the Investments and Activities Schedule to report investments in and activities of a reportable company within the reporter's organization as defined in the General Instructions.

Report each business event as a separate transaction even though several events may have occurred on the same day. For example, if a new subsidiary was established and it acquired a reportable company on the same day, a separate schedule should be filed for each company. The establishment of the new subsidiary should be reported as one transaction on one schedule and the acquisition of the reportable company by the new subsidiary should be reported on a separate schedule.

All information provided for a particular transaction date or effective date should reflect the structure of the organization as of close of business on that date. For purposes of this report, close of business occurs when the accounting books for the company were closed for the day.

The following are examples of business transactions that should be reported on this schedule. A complete description of reportable transactions and the specific events that trigger them is included in the item-by-item instructions on pages I&A 2 through 8 below:

INVESTMENTS:

- Formation of a new BHC, U.S. bank, or nonbank subsidiary;
- Acquisition of more than 5 percent of a class of voting shares or control of a BHC or U.S. bank;
- Certain changes in ownership of shares of a BHC or U.S. bank;
- Acquisition of control of a nonbanking company or a company, including a foreign bank, held under Subpart A of Regulation K;
- Any change in a reporter's voting interest in a nonbanking company that causes a direct holder's interest to fall within a different range than that previously reported at item B.4.c;

- Acquisition of all or substantially all the assets of a bank, BHC, or other company;
- The transfer of all or part of a reportable company to another subsidiary within the reporter's organization;
- Any change that causes a previously reportable company to cease to be reportable; and
- Certain large merchant banking investments.

ACTIVITIES:

- The commencement by a FHC of a new business activity directly or indirectly,
- A change in the primary or secondary activity of any reportable company, and
- A change in the legal authority under which a reporter chooses to conduct an activity,
- The termination of an activity by the reporter or any reportable company.

Note: Do not report activities that have been approved but not yet commenced.

The information reported on the Investments and Activities Schedule should provide an accurate representation of transactions affecting the organizational structure and activities of the reporter's organization. Information on each transaction should be complete and should indicate the type of transaction, when the transaction occurred, the companies involved in the transaction, and the legal authority code that applies to the transaction.

The Investments and Activities Schedule provides space for reporting one investment transaction. If more investments are being reported, duplicate the Investments and Activities Schedule and submit the appropriate number of schedules.

Certain items are required for all transactions while others pertain only to specific types of reportable transactions. See the item descriptions and sample business transactions (Appendix C) for more information.

In certain instances, such as the acquisition or formation of a new company, detailed information on the Investments and Activities Schedule must be accompanied by characteristics information. The characteristics information must be filed on the Characteristics Schedule and included in the report submission.

Check One:

Initial/Update/Correction:

Initial: Check this box to indicate new information not previously reported such as information on a newly formed company.

Update: Check this box to indicate information has changed from a previously reported transaction such as name change or change in voting securities.

Correction: Check this box to indicate that previously reported information is incorrect and should be corrected with the information provided.

Section A—Direct Holder and Reportable Company

Item A.1 - Direct Holder (Parent) Name and Location

Legal Name: This item indicates the direct holder of the reportable company. The top-tier BHC should report information for each direct holder of a reportable company. A top-tier BHC or unaffiliated SMB reporting itself should leave this item blank.

City, State/Province, Country: Provide the city, state/province, country (if non-U.S.) of the direct holder.

Item A.2 – Reportable Company Name and Location

Legal Name: Provide the legal name of the company that is the subject of the transaction. For top-tier BHC and unaffiliated SMB formations and subsequent reports regarding those companies, report the BHC or bank name in this item. For investment transactions, such as acquisitions, sales, or transfers, use the name of the company that was acquired, sold, or transferred. When reporting the commencement or termination of a business activity, the reportable company is the company that is conducting or has ceased to conduct the specified business activity.

Note: When reporting the acquisition of a company whose name subsequently was changed, report the acquisition under the previous name of the company and file a separate report of the name change on the Characteristics Schedule.

City, State/Province, Country: Provide the city, state/province, country (if non-U.S.) of the reportable company.

Item A.3 – Is the reportable company consolidated in the reporter’s financial statements?

Check the appropriate box to indicate whether the reportable company is consolidated in the reporter’s financial statements (FFIEC 031, FFIEC 041 or FR Y-9C).

Section B—Investments

For top-tier BHC and unaffiliated SMB formations, this section need not be reported. Companies that are controlled by an insurance underwriter should be reported in this section only if such companies are (a) the highest tier provider of a primary line of business (e.g., property casualty, accident/health) or (b) required to file a financial report with the Federal Reserve System. *For reporting of merchant banking investments, please refer to Section C.*

Item B.1 - Transaction Type

Check the box that best describes the type of transaction being reported. This item must be reported for all investment transactions. Select a type from the following list.

Change in Ownership/Control: This transaction type should be used to report an increase or decrease in the direct holder’s percent ownership of a class of voting securities in the reportable company. Do not use this item to report liquidations, complete transfers, or sales.

Commencement: To report the commencement of a new relationship with the reportable company.

Liquidation: To report the liquidation of a previously reportable company. Liquidations refer to final distribution of a company’s assets, complete satisfaction of liabilities and closing of all capital

accounts (the company is closed not sold or transferred.) This transaction type may result in the surrendering of a charter, license or franchise to the state chartering authority. This type should not be used to indicate the sale of the reporter's entire interest in a company or transfer.

No Longer Reportable: To indicate that the previously reportable investment in the reportable company no longer meets the reportability criteria. This transaction type should be used for events such as: the voting rights have decreased to less than 5 percent of any class of voting shares of a bank or BHC; control no longer exists for a nonbank investment, or when the nonbank investment ceases to do business.

Sale: This transaction type should be used to report the sale of any direct holder's *entire* equity interest in a company to an unaffiliated company. This transaction type is only used for investments that have been previously reported and are now no longer affiliated with the Reporter. Partial sales of assets or equity in a reportable entity are not covered by this transaction type.

Transfer within the reporter's organizational structure: This transaction type should be used to report the complete transfer of a company from one direct holder within the reporter's organization to another direct holder within the same reporter's organization. The new direct holder should be reported in Section A. The former direct holder should be reported in Section B, Item 3. This transaction type should *not* be used for partial transfers of shares within a Reporter's organization. Partial transfers should be reported as a *Commencement* or *Change In Ownership/Control* by the acquiring direct holder and a decreased investment by the selling (transferring) direct holder.

Other: Provide a text description for transactions that cannot be classified using the transaction types listed above.

Item B.2 - Transaction Date

Provide the date on which the transaction occurred.

Item B.3 - Legal name of the former direct holder if Transfer

If the transaction type being reported in Item B.1 is *Transfer within the reporter's organizational structure*, report in this item the legal name and location of the reporter that was formerly the direct holder of the reportable company. This item needs to be completed only by the new direct holder of the reportable company.

Item B.4 – Ownership/Control by the Direct Holder

For purposes of Item B.4, the term voting interest includes owning, controlling, or holding voting power for voting securities. The term aggregate voting interest is used to refer to the total voting interest held by a reporter, directly and/or indirectly. For purposes of this form, a reporter is deemed indirectly to control shares held by any bank or other company that the reporter controls through a voting interest or otherwise.

Therefore, some companies held under Regulation K will be reportable even though they are not subsidiaries as defined in that regulation.

See 12 CFR § 211.2(w).

When a reporter through multiple direct holders owns or controls shares of a voting class of a company's securities, the reporter should determine if the company is reportable by aggregating all the shares of that class controlled by the multiple direct holders. A reporter that has multiple direct holders of shares of a reportable company should prepare a separate Investments and Activities schedule for each direct holder of shares.

If a reporter directly or indirectly controls shares of more than one voting class of a company's securities, control of a percentage of any such class sufficient to meet the relevant reportability threshold (i.e., 5 percent for banks and BHCs; 25 percent for nonbanking companies) is sufficient to cause the company to be reportable. The reporter should report information for the class of voting securities in which its ownership interest is greatest on a percentage basis for each direct holder.

Note: Securities that are immediately convertible into voting securities at the holder's option are deemed to be share of the class to which they are convertible.

For information about how properly to calculate a voting interest in a bank, BHC, or other company, see the provisions of the Glossary to this form and of the Board's Regulation Y relating to voting securities and control (see sections 225.2(e), (k), and (q)(1)-(3) of Regulation Y (definitions of control, outstanding shares, voting securities, nonvoting shares, and class of voting shares, respectively); see also section 225.31(d) of Regulation Y (rebuttable presumptions of control)). If a reporter is uncertain about how to calculate a voting interest or is uncertain as to whether a basis of control exists, it should contact staff of the Board's Legal Division.

Items B.4.a and B.4.b apply ONLY if the reportable investment is a bank or BHC (see the Glossary for the applicable definition of bank or BHC)

A reporter's investment in a bank or BHC is reportable when:

- The reporter acquires an aggregate voting interest of more than 5 percent of the outstanding shares of any class of voting securities (see Item B.4.a); or
- The reporter acquires control of the bank or BHC through means other than voting interest (see item B.4.d); or
- The reporter's aggregate voting interest, when rounded down to the nearest whole percentage, changes by one percent or more (see item B.4.a).

Item B.4.a – Exact percentage of outstanding shares in a class of voting securities

A reporter that has an aggregate voting interest of more than 5 percent of the outstanding shares of any class of voting securities of a bank or BHC must report the exact percentage of its voting interest, rounded down to the nearest whole percentage. *Exception: a 50.01% interest should be reported as 51%, not rounded to 50%, in accordance with generally accepted accounting principles (GAAP).*

A change in a reporter's aggregate voting interest is reportable if, following the changes, the reporter's percent interest, when rounded down, is different than the percentage previously reported. If the reporter holds its interest through more than one

company, the reporter need only submit a separate Investments and Activities schedule for the direct holder(s) whose interest(s) changed.

Item B.4.b -- Exact percentage of nonvoting equity

A nonvoting equity interest in a BHC or bank does not render the BHC or bank a reportable company unless that nonvoting interest, alone or in combination with other factors, constitutes a basis of control (see Glossary for definition of control). However, for each bank or BHC that otherwise is reportable, the reporter must report the exact percentage it controls of the bank or BHC's total nonvoting equity (if 25 percent or more), rounded down to the nearest whole percentage. If the reporter's total nonvoting equity interest is held through more than one company, the reporter should report the percentage of total nonvoting equity controlled by each direct holder on a separate Investments and Activities Schedule.

Item B.4.c applies ONLY if the reportable company is a nonbanking company (see the Glossary for the applicable definition of nonbanking company) or an interest held under subpart A or C of Regulation K:

A reporter's investment in a nonbanking company held under Regulation Y (other than a company held as a merchant banking investment) or a foreign bank or nonbanking company held under subpart A or C of Regulation K is reportable when:

- The reporter acquires an aggregate voting interest of 25 percent or more of the outstanding shares of any class of voting securities (see Item B.4.c); or
- The reporter acquires control of a company or foreign bank through means other than a voting interest (see Item B.4.d); or
- The reporter's aggregate voting interest in a nonbanking company changes and, as a result of the change, the reporter's interest falls within a different percentage range than that previously reported (see instructions for Item B.4.c).

Item B.4.c -- Ownership interest in a class of voting securities

A reporter must report its aggregate voting interest in a company when the reporter acquires 25 percent or

more of the outstanding shares of any class of the company's voting securities.

Voting interests in nonbanking companies and companies held under subparts A and C of Regulation K need not be reported on an exact percentage basis. Rather, the reporter should check the box indicating the appropriate range of the voting interest of each direct holder. When choosing the appropriate range, round down to the nearest whole percentage. *Exception: a 50.01% interest should be reported as 51%, not rounded to 50%.*

A change in a reporter's voting interest in a company is reportable only if the change results in one or more direct holder(s) holding a voting interest that is outside the range of that it previously reported. In such cases, the reporter should provide an updated Investments and Activities schedule for the appropriate direct holder(s) indicating the appropriate range for the direct holder's new voting interest.

Item B.4.d must be completed for ALL banks, BHCs, and other companies reportable under Section B:

Item B.4.d -- Other basis of control

Check the appropriate box to indicate whether the reporter controls the reportable company through means other than a voting interest. See the Glossary for the complete definition of control.

As indicated above, a reporter that is uncertain about whether or not it controls a bank, BHC, or nonbanking company should consult with staff of the Board's Legal Division.

Section C—Merchant Banking Activities and Reportable Merchant Banking and Insurance Company Investments

When reporting information about merchant banking and investment activities, provide the current legal name of the reportable company from Section A.

General Description of Authority

A FHC that conducts merchant banking activities pursuant to section 4(k)(4)(H) of the BHC Act (see Glossary for definition of merchant banking) may invest in any nonfinancial company, so long as the investment is not made by or on behalf of a

depository institution or a subsidiary of a depository institution (see 12 U.S.C. § 1843(k)(4)(H); and 12 CFR § 225.170 *et seq.*). A FHC also may make insurance company investments through a subsidiary that predominantly is engaged in underwriting insurance (other than credit-related insurance) or providing or issuing annuities (see 12 U.S.C. § 1843(k)(4)(I)).

Merchant banking and insurance company investments by definition involve investments in companies that engage in *nonfinancial* activities. An acquisition of an interest in a company that only engages in financial activities is not considered a merchant banking or insurance company investment, even if the FHC acquires the interest purely for investment purposes. Acquisitions of companies engaged in financial activities therefore, should be reported in accordance with the instructions in Section B above.

Commencement of Merchant Banking or Insurance Company Activity, De novo, or Acquisition of a Going Concern

A FHC must report commencement of the merchant banking or insurance company investment activity de novo in accordance with the instructions for Sections B and D. In Section D, the FHC would report merchant banking or insurance company investments, as applicable, as a new activity. Responses to the questions in Section C would be required only if an investment made in connection with commencement of the merchant banking or insurance company investment activity met the requirements for filing Section C, as discussed in more detail below.

A FHC also must report the acquisition of control of a going concern that is engaged in merchant banking or insurance company investment activities in accordance with the instructions for Sections A, B, and D. For such acquisitions, the FHC would report the merchant banking or insurance company investment activity in Section D only if merchant banking were the primary or secondary activity of the acquired company.

Reporting Particular Investments made under Merchant Banking or Insurance Company Investment Authority

Generally, particular investments in a nonfinancial company made by a FHC under its merchant banking or insurance company investment authority are not reportable. However, a particular investment must be reported in accordance with this Section C if, and only if, the FHC's investment in a particular nonfinancial company is made as part of a merchant banking or insurance company investment activity and the FHC on a consolidated basis (directly and/or indirectly through any of its subsidiaries):

- Acquires more than 5 percent of the voting shares, assets, or ownership interests of the company (including an interest in a private equity fund); and
- The total cost of the investment exceeds the lesser of \$200 million or 5 percent of the FHC's Tier 1 capital (companies that are not required to report Tier 1 capital should instead measure the cost of the investment as a percentage of their total risk-based capital to determine reportability).

To satisfy the applicable notice requirements in Regulation Y (see 12 CFR §§ 225.87(b)(4) and 225.175(c)(2)), a FHC must report an investment in a nonfinancial company within 30 days of the *initial* date on which the FHC's investment meets the above criteria. A FHC filing a FR Y-10 to report a merchant banking investment should only submit one Investments & Activities schedule that describes its interest in the company and should only provide the information requested in this Section and in Section A, items 1 and 2.

The Characteristics Schedule and Section D of this Schedule are not required in connection with a report of a large merchant banking investment.

Changes to Previously Reported Investments

Updates to previously reported merchant banking investments (e.g., incremental increases in investment or divestitures of a particular investment) are not reportable.

Item C.1 -- Percentage interest in the reportable company

Report each direct holder's percentage interest in the reportable company it is holding as a merchant banking or insurance company investment and check the appropriate box to indicate whether the interest is in voting equity or other ownership interest, or in assets. If the FHC made its initial merchant banking investment in a company through more than one direct holder, the FHC should only submit one Investments and Activities Schedule. The FHC should identify one direct holder in Section A of this schedule and submit a list that identifies the remaining direct holders of the initial investment. Report the percentage interest, rounded down to the nearest whole percentage. *Exception: a 50.01% interest should be reported as 51%, not rounded to 50%.*

Item C.2 -- Cost of investment

Report the FHC's initial aggregate cost (e.g., consolidated organization cost), rounded to the nearest million dollars.

Item C.3 -- Transaction Date

Provide the date on which the initial investment was made.

Section D—Activities

The appropriate Item(s) of this Schedule should be completed in connection with the following events:

- An initial report in which the reporter reports its own primary and secondary activities;
- Acquisition of and/or commencement of business at a reportable bank or BHC;
- Commencement de novo of a financial activity through an existing subsidiary of a FHC, if the FHC previously has not notified the appropriate Federal Reserve Bank that the FHC is engaged in the activity;
- Acquisition by a FHC of control of a company that is engaged in a financial or incidental activity;
- Acquisition by a BHC of control of a going concern that is engaged in a nonbanking activity;
- A change in the primary or secondary activity of any reportable company (including changes that

result from commencing a new activity at the reportable company);

- The termination of any activity at a previously reported company;
- A change in the legal authority under which a reportable company conducts a primary or secondary activity; and
- Post transaction notice for section 4(k)(4) of the BHC Act.

For each reportable activity transaction, the reporter must provide an activity code that describes the activity being reported. The reporter should consult Appendix B (Federal Reserve Board of Governors' Activity Codes) and enter the alphanumeric code that best describes the activity being reported. If, and only if, an activity is not listed in Appendix B, the reporter should select a Northern American Industry Classification System (NAICS) code that describes the activity. For more information about NAICS codes, consult the Census Bureau's web site <http://www.census.gov/epcd/www/naics.html>.

When using NAICS codes, restrict your selection to four digits.

When reporting information about the legal authority under which an activity is conducted, the reporter should choose the appropriate legal authority from Appendix A (Federal Reserve Board of Governors' Legal Authority Codes).

Item D.1 applies ONLY to activities conducted by FHCs under section 4(k) of the BHC Act.

Item D.1 -- Post-transaction notice of a financial activity conducted under section 4(k) of the BHC Act

A FHC must use this section to satisfy the post-transaction notice requirement of section 4(k) of the BHC Act and section 225.87 of Regulation Y to identify the new activity it has commenced or the activity of the company it has acquired, as appropriate.

Commencement of an activity de novo through an existing subsidiary A FHC that commences a financial activity under section 4(k) of the BHC Act for the first time through a subsidiary it already controls must complete this item. The FHC thereafter may engage in the activity through any of

its *existing* subsidiaries without filing an additional post transaction notice, Item D.1.

A FHC that commences an activity simultaneously through more than one subsidiary need only submit one report. Section A of the Investments & Activities Schedule should be used to identify one subsidiary through which the activity was commenced, and the reporter should attach a list indicating the name and address of all other subsidiaries that simultaneously commenced the activity. Because primary and secondary activities of a going concern are determined as of a company's most recent fiscal year end, items D.2 and D.3 below are not required in connection with commencing a new financial activity de novo.

Acquisition of control of a company engaged in a financial activity. A FHC also is required to submit a post-transaction notice after acquiring control, under section 4(k) of the BHC Act, of a company engaged in a financial activity, regardless of whether the FHC already is engaged in the activity elsewhere within its organization. A FHC that has acquired a new company engaged in a financial activity must provide complete structure information for the newly reportable company, including items D.2 and D.3 below.

Items D.2 through D.4 are relevant for FHCs reporting the commencement of financial activities de novo through an existing subsidiary in Item D.1 above, complete items 2 and 3 below only when the new activities are considered to be primary or secondary.

Item D.2 -- Primary Activity

Provide information about a company's primary activity when reporting the company for the first time and when the primary activity changes. For going concerns, the primary activity is the activity that generated the largest percentage of the company's gross revenue as of the company's most recent fiscal year end. For companies that are commencing business or have not operated for an entire fiscal year, the primary activity is the activity that the reporter expects to generate the largest percentage of the company's gross revenue during the current fiscal year. Information about the legal authority under which a company conducts the activity is required.

Changes in legal authority A change in the legal authority under which a reportable company conducts a primary activity also is reportable. (For example, a FHC that conducts nonbanking activities through a reportable company under section 4(c)(8) of the BHC Act may instead choose to conduct the activity under section 4(k).)

Transaction type: Check the appropriate box to indicate whether the reporter is reporting the commencement of a primary activity in connection with an initial report or a change with respect to the primary activity of a previously reported company.

Commencement: This transaction type should be used when reporting a company for the first time.

Update: This transaction type should be used to report changes to a previously reported primary activity or the legal authority under which it is conducted.

Transaction date: Provide the date on which the activity was commenced or on which the reportable change occurred.

Legal authority code: Enter the code from Appendix A that identifies the legal authority under which the activity is conducted. If code 999 "Other" is chosen, please provide a text explanation.

Activity code: Enter the FRS Activity code from Appendix B that best describes the primary activity of the reportable company. If, and only if, the activity is not described in Appendix B, enter the appropriate NAICS code, restricting your selection to four digits. In the event that an activity is listed neither in Appendix B nor the NAICS codes, provide a text description of the activity in the space provided.

Description of activity: A text description of an activity must be entered only when a reporter cannot identify either a FRS Activity Code or a NAICS code that corresponds to the activity.

Item D.3 -- Secondary Activity

If the reportable company is engaged in more than one activity, report information on the company's secondary activity. For going concerns, the

secondary activity is the activity that generated the second largest percentage of the company's gross revenue as of the company's most recent fiscal year end. For companies that are commencing business or that have not operated for an entire fiscal year, the secondary activity is the activity that the reporter expects to generate the second largest percentage of the company's gross revenue during the current fiscal year.

Check the appropriate box to indicate whether the company is reporting a commencement or an update. In addition, report the transaction date, activity code (or, where relevant, a description of the activity), and legal authority code. For detailed instructions on how to complete these items, see the instructions for Item D.2 above.

Item D.4 -- Termination of any activity

Item D.4 should be completed when a reportable company ceases to engage in an activity previously reported in items D.2, or D.3. The reporter should provide the activity code that identifies the terminated activity. If a reportable company has become totally inactive, report "ALL" in the activity code field to indicate that all business activities have ceased.

A reporter should complete this item when it no longer engages in an activity through any part of its organization. In that case, the reporter should report itself as the reportable company, provide the activity code that identifies the terminated activity, and report "ALL" in the activity code field to indicate that all reportable companies held by the reporter have ceased engaging in the activity.

Specific Instructions for the Merger Schedule (FR Y-10)

- (i) By any subsidiary of the bank or other company;

- (ii) In a fiduciary capacity (including by pension and profit-sharing trusts) for the benefit of the shareholders, members, or employees (or individuals serving in similar capacities) of the bank or other company or of any of its subsidiaries; or
- (iii) In a fiduciary capacity for the benefit of the bank or other company or any of its subsidiaries.

(B) Rebuttable Presumptions of Control (12CFR §225.31(d)): The following rebuttable presumptions of control shall be used for determining the existence of a control relationship under the definition of control listed above:

- (1) *Control of voting securities.*
 - (i) *Securities convertible into voting securities.*

A company that owns, controls, or holds securities that are immediately convertible, at the option of the holder or owner, into voting securities of a bank or other company, controls the voting securities.
 - (ii) *Option or restriction on voting securities.* A company that enters into an agreement or understanding under which the rights of a holder of voting securities of a bank or other company are restricted in any manner controls the securities. This presumption does not apply where the agreement or understanding --
 - a) Is a mutual agreement among shareholders granting to each other a right of first refusal with respect to their shares;
 - b) Is incident to a bona fide loan transaction; or
 - c) Relates to restrictions on transferability and continues only for the time necessary to obtain approval from the appropriate federal supervisory authority with respect to acquisition by the company of the securities.
- (2) *Control over company.*
 - (i) *Management agreement.* A company that enters into any agreement or understanding with a bank or other company (other than an investment advisory agreement), such as a management contract under which the first company or any of its subsidiaries directs or exercises significant influence over the general management or overall operations of the bank or other company controls the bank or other company.

- (ii) *Shares controlled by company and associated individuals.* A company that, together with its management officials or controlling shareholders (including members of the immediate families of either) owns, controls, or holds with power to vote 25 percent or more of the outstanding shares of any class of voting securities of a bank or other company controls the bank or other company, if the first company owns, controls, or holds with power to vote more than 5 percent of the outstanding shares of any class of voting securities of the bank or other company.

- (iv) *Shares held as fiduciary.* The presumptions in paragraph (2)(ii) and (iii) above do not apply if the securities are held by the company in a fiduciary capacity without the sole discretionary authority to exercise the voting rights.

(3) *Absence of control.*

For presumptions of noncontrol of a bank or other company, see section 225.31(e) of Regulation Y (12 CFR § 225.31(e)).

(C) Other Means of Control

- (i) *Control based on nonvoting equity.* In some cases, a reporter that owns a large percentage of the nonvoting equity of a bank or other company may be deemed to control that bank or company. If a reporter controls more than 25 percent of the nonvoting equity of a bank or other company, the reporter should consult staff of the Board’s Legal Division to discuss whether a company or bank is controlled and, therefore, reportable.
- (ii) *Acquisition of all or substantially all assets.* A company that acquires all or substantially all the assets of a bank or other company is deemed to have acquired control of that bank or other company.

(D) Is a Security Voting or Nonvoting?:

(1) *Voting Securities.* Shares of common or preferred stock, general or limited partnership shares or interests, or similar interests are voting securities if the shares or interests, by statute, charter, or in any manner, entitle the holder:

- (i) to vote for or to select directors, trustees, or partners (or persons exercising similar functions of the issuing company); or
- (ii) to vote on or to direct the conduct of the operations or other significant policies of the issuing company.

(2) *Nonvoting securities.* Certain preferred shares, limited partnership shares or interests, or similar interests (including some shares or interests that entitle the shareholder to vote for specific matters) are not considered “voting securities” for purposes of Regulation Y. To be considered a nonvoting security, the shares or interests must meet all three of the following criteria:

- (i) The voting rights, if any, associated with the shares or interests must be limited solely to the type of voting rights that corporate laws typically provide regarding matters that would significantly and adversely affect the rights or preference of the security or interest (for example, voting rights regarding the modification of the terms of the security or interest, the dissolution of the issuing company, or the payment of dividends by the issuing company when preferred dividends are in arrears);
- (ii) The shares or interests must represent an essentially passive investment or financing device and must not otherwise provide the holder with control over the issuing company (for example, the interest is less than 10 percent of total equity and the shareholder does not participate in the management of the company); and
- (iii) The shares or interests must not in any manner entitle the holder to select or to vote for the selection of directors, trustees, or partners (or persons exercising similar functions) of the issuing company.

Please see 12CFR §225.2(q) for a more detailed explanation of the criteria used to determine whether a security is voting or nonvoting.

(E) Class of Voting Shares: Shares of stock issued by a single issuer are deemed to be the same class of voting shares, regardless of differences in dividend rights or liquidation preference, if the shares are

voted together as a single class on all matters for which the shares have voting rights, other than matters described in 12 CFR § 225.2(q)(2)(i) that affect solely the rights or preferences of the shares.

(F) Controlled in the Aggregate: When two or more direct holders that are part of the same reporter's organization have a voting equity position in a company that if added together would result in the company being controlled within the reporter's organizational structure. For example, BHC A owns 15% of nonbank Z. BHC B owns 15% of the same nonbank Z. BHC A is a subsidiary of BHC B, which is in turn a subsidiary of top-tier BHC C. When these investments are added together the investment in nonbank Z equals 30% and results in control in the aggregate within BHC C's organization.

Unless otherwise noted in these instructions, the term FBO includes foreign financial holding companies. For purposes of this report "foreign banking organization" also includes a foreign bank that controls an Edge or agreement corporation. (12 CFR § 211.2(m) and (n)). The term FBO does not include an agency of a foreign government. Please also refer to the definition for Qualified Foreign Banking Organization.

Transaction Dates:

The transaction date is the date on which the event was first reflected on the company's accounting books. For example, if two BHCs merge together after the close of business on December 31, then the transaction date of the merger is January 1 because the two BHCs were separate companies on December 31 and their accounting books were not combined until January 1.

Board of Governors of the Federal Reserve System

Example 1:

Formation of Hometown Holding Company and the initial acquisition of Hometown Bank and its subsidiaries Hometown Services, Inc. and Hometown Foundation. In this example, Hometown Bank was not previously reportable on the FR Y-10. This is a typical report for a de novo BHC acquiring an existing bank and its subsidiaries.

Illustration of Example 14 – Formation of a limited partnership

Before

This example provides guidance for reporting multiple investments by the same Reporter in companies that issue multiple classes of voting securities. Hometown G.P., Inc. and Hometown L.P., Inc., which are wholly owned subsidiaries of the same Reporter, have made investments in, Hometown Investors, LP. Hometown G.P., Inc. is the sole general partner of the limited partnership and therefore owns 100% of a class of voting securities under Reg Y. Hometown L.P., Inc. is the sole limited partner in the limited partnership. Following a review by FRB staff, this investment has been deemed as a controlling investment because 1) it comprises a significant portion of the investee's total equity or 2) represented a controlling interest in a voting security as defined by Reg Y. This investment is reported as Other Basis of Control in all cases.

After

Acquisition by Hometown Bank of Simply Cellular Service, London, England, under the legal authority of Regulation K (Subpart A).
