SUPPLEMENTARY INFORMATION:**Appendix I—Federal and Federal-State Agency National Environmental Policy Act (NEPA) Contacts**

Section 1507.2 of the Council's regulations for implementing the procedural provisions of the National Environmental Policy Act requires agencies to have an individual responsible for overall NEPA compliance. This appendix identifies the individual within each agency that is responsible for coordinating with the Council on behalf of that agency and for exercising NEPA oversight within that agency. This person can provide basic information about the agency's NEPA

activities and about the procedures which the agency has adopted to supplement the Council regulations (40 CFR 1507.3).

To ascertain the proper office in an agency for receiving and commenting on other agencies' environmental documents, refer to Appendix III of this issuance.

Appendix II—Federal and Federal-State Agencies With Jurisdiction by Law or Special Expertise on Environmental Quality Issues

This appendix is a compilation of Federal and Federal-State agencies with jurisdiction by law, a statutorily mandated consultative role, or special expertise on environmental quality issues. Both the public and private sectors and governmental agencies can use this list as a reference guide to facilitate their participation in and compliance with NEPA process.

The appendix is organized into four broad categories: pollution control, energy, land use, and natural resource management. Because most actions involve environmental issues falling into more than one of these categories, users should consult all pertinent entries.

The areas of special expertise are listed in parentheses following the agency name. They are intended to provide examples rather than define the limits of an agency's total expertise in that area.

The areas of jurisdiction by law and statutorily mandated consultations are listed below each appropriate agency or component. Entries dealing with jurisdiction by law relate to that agency's authority to approve, deny, or finance all or part of a proposal and include permits and licenses. Because experience in implementing NEPA has proven that identification of an agency's statutorily mandated consultative role is of equal significance to users of this list, those responsibilities are now specifically cited and include such authorities as the National Historic Preservation Act of 1966 (16 U.S.C. Sec. 470 *et seq.*), the Fish and Wildlife Coordination Act (16 U.S.C. Sec. 661 *et seq.*), and the Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 *et seq.*). Because laws are amended and new laws enacted, the responsibilities identified in this appendix may change or new ones may be added. Hence, the definitive responsibility of an agency depends on the then current law and not on this index.

The Council on Environmental Quality has prepared this list to supplement its NEPA regulations and believes that it will be helpful in the following ways:

First, the Council's NEPA regulations require the Federal agency having primary responsibility for preparing an environmental impact statement (EIS) under NEPA (the lead agency) to determine whether any other Federal agencies have jurisdiction by law or special expertise with respect to any environmental effects involved in a proposal for legislation or other major Federal action significantly affecting the human environment. 40 CFR 1501.5(a), 1501.6(a), 1501.7(a). The Federal lead agency must, early in the NEPA process, request the participation of Federal cooperating agencies with jurisdiction by law or special expertise concerning the proposal. 40 CFR 1501.6(a), 1501.7(a). The lead agency and those involved in the "scoping process" (see 40 CFR 1501.7) may use this list to help determine which other Federal agencies should be requested to participate as cooperating agencies in the NEPA process. The list will also be helpful to the lead agency in determining which agencies should receive copies of the draft environmental impact statement for review and comment. 40 CFR 1503.1.

Second, this compilation will prove useful to those whose activities or proposed actions require Federal regulatory approvals by facilitating the identification of:

a. Those Federal agencies with the authority to issue applicable permits, licenses or other Federal regulatory approvals, and

b. Those Federal agencies that have a statutorily mandated consultative role that must be carried out before a decision is made.

Third, a major goal of NEPA and the CEQ regulations is to encourage public participation in agency decisionmaking. 40 CFR 1500.2(d). Individuals, citizen groups and State and local governments who are interested in an environmental issue may use the list to help identify those agencies that have jurisdiction by law over or special expertise in the subject matter of a proposal. Those interested may then contact the potentially involved agencies to obtain information on the issues and to participate in the NEPA process.

Appendix III—Federal and Federal-State Agency Offices for Receiving and Commenting on Other Agencies' Environmental Documents

Section 1503.1 of the Council's regulations for implementing the procedural provisions of the National Environmental Policy Act requires the agency that has prepared a draft environmental impact statement to "obtain the comments of any Federal

agency which has jurisdiction by law or special expertise with respect to any environmental impact involved or which is authorized to develop and enforce environmental standards." Section 1503.2 discusses the "Duty to Comment" by those Federal agencies. This appendix identifies the location of the Federal and Federal-State agency offices for receiving and commenting on other agencies' environmental documents. The agency distributing the environmental document should give special attention to the instruction immediately following the agency name to ensure that the comment request and document(s) are sent to the correct office, e.g., some agencies ask that documents concerning legislation, regulations, national program proposals and other major policy issues be sent only to its headquarters office with all other documents to be sent to a regional office. If a transmitting agency has questions about where to send a document, consult the Federal agency NEPA contact listed in Appendix I.

Other Information

Since agency responsibilities, legal authorities, programs, and other data appearing in these Appendices change regularly, the Council will update the Appendices periodically. Agencies and the public are strongly encouraged to send comments noting changes or corrections that should be made to any Appendix.

Dated: December 14, 1984.

Dinah Bear,

General Counsel.
