

TITLE IV—Marine Mammal Health and Stranding Response

Establishment of Program

16 U.S.C. 1421

Sec. 401. (a) ESTABLISHMENT. — The Secretary shall, in consultation with the Secretary of the Interior, the Marine Mammal Commission, and individuals with knowledge and experience in marine science, marine mammal science, marine mammal veterinary and husbandry practices, and marine conservation, including stranding network participants, establish a program to be known as the "Marine Mammal Health and Stranding Response Program".

(b) PURPOSES. — The purposes of the Program shall be to—

(1) facilitate the collection and dissemination of reference data on the health of marine mammals and health trends of marine mammal populations in the wild;

(2) correlate the health of marine mammals and marine mammal populations, in the wild, with available data on physical, chemical, and biological environmental parameters; and

(3) coordinate effective responses to unusual mortality events by establishing a process in the Department of Commerce in accordance with section 404.

Determination; Data Collection and Dissemination

16 U.S.C. 1421a

Sec. 402. (a) DETERMINATION FOR RELEASE. — The Secretary shall, in consultation with the Secretary of the Interior, the Marine Mammal Commission, and individuals with knowledge and experience in marine science, marine mammal science, marine mammal veterinary and husbandry practices, and marine conservation, including stranding network participants, develop objective criteria, after an opportunity for public review and comment, to provide guidance for determining at what point a rehabilitated marine mammal is releasable to the wild.

(b) COLLECTION. — The Secretary shall, in consultation with the Secretary of the Interior, collect and update, periodically, existing information on—

(1) procedures and practices for—

(A) rescuing and rehabilitating stranded marine mammals, including criteria used by stranding network participants, on a species-by-species basis, for determining at what point a marine mammal undergoing rescue and rehabilitation is returnable to the wild; and

(B) collecting, preserving, labeling, and transporting marine mammal tissues for physical, chemical, and biological analyses;

(2) appropriate scientific literature on marine mammal health, disease, and rehabilitation;

(3) strandings, which the Secretary shall compile and analyze, by region, to monitor species, numbers, conditions, and causes of illnesses and deaths of stranded marine mammals; and

(4) other life history and reference level data, including marine mammal tissue analyses, that would allow comparison of the causes of illness and deaths in stranded marine mammals with physical, chemical, and biological environmental parameters.

(c) AVAILABILITY. — The Secretary shall make information collected under this section available to stranding network participants and other qualified scientists.

Stranding Response Agreements

16 U.S.C. 1421b

Sec. 403. (a) IN GENERAL. — The Secretary may enter into an agreement under section 112(c) with any person to take marine mammals under section 109(h)(1) in response to a stranding.

(b) REQUIRED PROVISION. — An agreement authorized by subsection (a) shall—

(1) specify each person who is authorized to perform activities under the agreement; and

(2) specify any terms and conditions under which a person so specified may delegate that authority to another person.

(c) REVIEW. — The Secretary shall periodically review agreements under section 112(c) that are entered into pursuant to this title, for performance adequacy and effectiveness.

Unusual Mortality Event Response

16 U.S.C. 1421c

Sec. 404. (a) RESPONSE. —

(1) WORKING GROUP. — (A) The Secretary, acting through the Office, shall establish, in consultation with the Secretary of the Interior, a marine mammal unusual mortality event working group, consisting of individuals with knowledge and experience in marine science, marine mammal science, marine mammal veterinary and husbandry practices, marine conservation, and medical science, to provide guidance to the Secretary and the Secretary of the Interior for—

(i) determining whether an unusual mortality event is occurring;

(ii) determining, after an unusual mortality event has begun, if response actions with respect to that event are no longer necessary; and

(iii) developing the contingency plan in accordance with subsection (b), to assist the Secretary in responding to unusual mortality events.

(B) The Federal Advisory Committee Act (5 App. U.S.C.) shall not apply to the marine mammal unusual mortality event working group established under this paragraph.

(2) RESPONSE TIMING. — The Secretary, in consultation with the Secretary of the Interior, shall to the extent necessary and practicable—

(A) within 24 hours after receiving notification from a stranding network participant that an unusual mortality event might be occurring, contact as many
