

Precision Machining

Multi-purpose machining centers improve safety, productivity, quality, and responsiveness

Wire-feed EDM cuts complex features and contours fast and with precision

Multi-Axis Machining

High-Speed Henri Liné 5-Axis Gantry Mill

- 16,000 rpm – true high speed
- Machining of parts up to 29 ft long, 20 ft wide, 7 ft high
- Feed rate up to 600 ipm
- 75-ton capacity overhead crane
- Maximum work piece of 120,000 lb
