**Congratulations**, on purchasing the one and only **Original AbTronic™**, the smart Electronic-Exercise System specifically designed to support Body Toning, Athletic Enhancement and Body Building.

**You** have chosen the most advanced and best quality unit that will last you to enjoy many years to come. Unlike any other system on the market today only the original AbTronic™ has the unique patent pending Neoprene Centre Piece that was designed in Germany. It is made from a graphite silver silicon compound so it can not peel, crack or tear like those other belts that only have a conductive surface painted on or cheap aluminum foil glued on.

Thanks to its unique space age compound the **AbTronic™** is the most comfortable to wear and it will save you a lot of money and aggravation because you don't have to buy new belts again and again as you would be forced to by these other systems.

With your new original **AbTronic™** you can rest assured that you own the best and safest system for your body and health. Thanks to its smart compatible design you can also choose from the many accessories available to customize your AbTronic™ system. Without the need to buy any new electronic unit, you can inexpensively convert your original **AbTronic™** to a totally wireless massager, to the most advanced system to target cellulite or to a therapeutic tool similar to the ones used by many Chiropractors and Clinics

**NEW:** Included as a bonus is this exclusive "Butterfly" Gel pad that converts your AbTronic™ to a totally wireless massage system. Just snap the AbTronic™ unit directly onto this butterfly pad and place the self adhesive Gel Pad on any area you want to treat. Enjoy a relaxing and soothing personal massage.

## TAKING CARE OF YOUR UNIT

AbTronic™ is made of quality materials. The only maintenance required with the AbTronic™ is to clean the neoprene belt gently from time to time with soft soapy, warm water (Woolite). Do not rub hard on the conductive area. **Do not wash the belt in the washing machine or apply fabric conditioner. NEVER BEND the centerpiece.** If several people want to share the AbTronic™ you can easily detach the computer unit by unsnapping it from the neoprene center and use it on your own personal center piece for hygienic reasons. Just pull the unit off and put it on a new belt. The AbTronic™ is extremely energy efficient. The Battery (1 x CR 2032, 3V Lithium) lasts for approx. 1000 minutes continuous use. The electronic computer unit is built very reliable and uses SMD technology. It is maintenance free and will give you many, many years of trouble free usage.

## WHAT'S NEW ?

As with many good new products, once they are successful there are certain people who just want to copy them for a quick buck. But they lack any experience in the product they are manufacturing, hence make a much inferior product because they don't know what components are important. They cheat their customers because they don't care for any quality as long as it looks just similar. But by far they don't have the quality and features of the Original. Don't be cheated and left disappointed. No matter how you look at it, you don't want to be cheap with your own body and health. Only the best should do and you deserve it.

- Q. Why is the **original AbTronic™** better than other systems?
- A. Because you get Quality, Durability, Comfort and Safety from A-Z from the original manufacturer that invented this product and has the most experience. Of course there is also technical supremacy, like more output power, a faster microprocessor with larger memory, non repetitive programs for faster results, a smarter energy saving circuit for longer lasting batteries and the patent pending Centre Piece molded from silicon graphite silver compound that feels the most comfortable on your skin and will last you a lifetime.

😊 **NEW**: If you want to use your AbTronic™ more for massage purposes, please look for the many smart original AbTronic™ accessories, like the wireless Butterfly stick on Gel Pad or the cleverly designed AbTronic™ Therapy Adapter Kit (ATU) that converts your AbTronic™ to a Therapeutic Tool with stick on Gel Pads. (Includes Clip Adapter, Wire set, 2 x Gel Pads, 1 x Butterfly Pad)
