Security System Services Contract Awarded at NTS

The National Nuclear Security Administration (NNSA) has awarded a small-business contract for security services at the Nevada Test Site. PAI Corporation of Oak Ridge, Tennessee, was awarded the three year contract. The contract is effective December 7, 2006.

The \$12,806,282 base period contract has two option years worth approximately \$9.3 million.

PAI Corporation will perform Vulnerability Assessments, support Operational Security Assessments, perform physical fitness training, support the Nevada Site Office classification program and provide ad-hoc security support as needed. These services also include, but are not limited to, the preparation review of the Nevada Site Office Site Safeguards and Security Plan and Security Classification support.

Protective force security work at the test site is performed by Wackenhut Services, Inc. This Security System Services contract is work formerly performed by Wackenhut and was set aside from their work activity by the NNSA to encourage and foster small-business participation in NNSA contract activities.
